STUMP

A Postum ad in Sunday's Free Press magazine section is captioned, "Ever feel like trading yourself in for a new model?" And that is just about as eye-catching a headline as you will ever see. My mental answer to that provoking question for the million on thousand times YES! But I doubt seriously whether Postum will solve the problem. Frankly, Jack Pine is just plain beat. He's tired, and hasn't enough sense to bed at night, nor enough ambition to get out of bed in the morning. Maybe it is this night fishing. Sure am glad that the so-called "caddis" hatch is over and done with and "hopper" season is on. Maybe things will straighten out.

About the best cartoon I have seen in quite a while showed a most irritated man yelling at his wife, "I am NOT grouchy this morning, just a little less pleasant than usual, that's all!" Have one wee little complaint for the City Fathers this week. On the Fourth of July, it is reported, some public spirited local citizen noted that "tags" were from practically all the local buildings except the power plant. The tag pole in front of the building there, but that the tags were in such a disarray that the men were ashamed to fly them. As one local man put it, "If the City can afford to put neon lights on the Power Plant, why can't they afford to have a decent flag pole in front of the Fourth of July?" Which is a very good question.

Jack Pine doesn't know where the figures come from, but he has been told that the poor weather this summer has cost the working people of Grayling about \$2,000 a piece. Rain and cold weather have discouraged and driven away many of the tourists who usually come here. Jack Pine figures can be verified. It might be interesting to make up a fact sheet for local consumption, showing how much this area does depend on the tourists, reporters, hunters and fishermen. If the figures are correct, it has yet to figure out why apparently some people can't understand that our economy is based on sports and vacation and not the will of the wispy dreams of "independent business" men. It is a shame that the local business community is so shortsighted. It is a shame that the local business community is so shortsighted.

From "Pipe Dreams", this one: By the time parents decide a television program is something the children shouldn't see, they are too interested in it themselves to shut it off.

Oh, happy day! Once again Bert Stoll, Free Press outdoor writer, has been hit to write hundreds upon hundreds of words about our favorite city, Grayling, and our favorite river, the Saginaw. Someone ought to pin a large gold medal on that man for not only knowing where to look for the very best that Michigan has to offer, but for being as much as he does. We ought to have a "Bert Stoll Day" in Grayling some time soon. Or at least have him do the crowning of the Winkler Sportsman. I have never met the man, but I would most certainly like to. And I will extend him an open invitation to visit me on the South Branch, to accept my hospitality (such as it is) and to fish with me. Anytime after this next weekend, Bert.

A new sign has appeared on M-72, heading west into that Grayling Valley is 32 miles ahead. The Chamber of Commerce ought to put one up just beyond it reading, "Why go 32 miles? Grayling has everything."

Down in Texas another sign reads, "We just happen to like kids here. Please drive like you do, too." While on that subject, a nine year old from out of state, has been in Michigan for a while. "No wonder they call it Water Wonderland. It's sure got lots of water and it's a wonder there aren't more people in the hospital the way people drive in this state."

Jack Pine usually doesn't read the scribbles on the walls of public places, but one in the southern part of the state was so bold and unusual as to command the attention of anyone. It read, "Jesus Saves!" However, beneath it someone else had penciled in, "S & H Green Stamps."

Race Planes Forced Down At Grayling

Seven planes taking part in the Women's Plane race from Flint to Pellston were forced down at the Grayling MacNamara Air Base last Thursday due to the bad flying weather. The group continued the trip by plane. Landing here were L. M. Rumsey, Lee Slavic, Lackland Blume and Garrett Jaka, all of St. Louis, Missouri, Mary Feeser, of Cleveland, Ohio, Florence Toney of Milwaukee, Wisconsin and Mrs. Turcutt of Boston, Mass. All are members of the 99's, an international organization for women pilots. Several of the planes had just finished the California to Flint's Bishop Airport, Powder Puff Derby.

Last Friday, eight planes of the Civilian Air Patrol from Akron, Ohio landed at the local air base. The pilots and passengers came up for a weekend of fishing. They left for their home base on Sunday.

Harwood-Golnick Wed At St. Mary's

Miss Jermae Harwood became the bride of Robert Bruce Golnick in vows solemnized at St. Mary's Church on Saturday morning, July 14th. The Rev. Fr. Joseph Sakowski officiated at the nuptial high mass at ten o'clock in the presence of seventy-five guests. St. Mary's choir provided music. Miss Greta Rasmussen presided at the organ. Lighted tapers and arrangements of gladioli graced the altar for the ceremony.

Jermae, the daughter of Mr. and Mrs. Willard Harwood, was given in marriage by her father. She wore a ballerina length gown of pale blue net over tulle, fastened with a row of white buttons, cap sleeves and full skirt. With this she wore a white gold cross, a gift from the groom. She wore a little white cap of cord and satin and carried red roses on a white prayer-er bed of white with full white streamers tied with lover's knots. Miss Verna Ross, maid of honor, wore a dress of pale pink net over tulle. It was designed with a scoop neckline, cap sleeves and full skirt. Her little white cap was similar to the bride's. She carried a colonial bouquet of white bebe mums.

Claude Golnick was best man and Mrs. Golnick was bridesmaid. The bride and groom were seated in the front of the church. The wedding breakfast was held at the home of the bride's parents. The wedding party included the bride, groom, maid of honor, best man, bridesmaid, flower girl, ring bearer, and ushers. The wedding was a private ceremony with only family and friends in attendance.

Another Trap Shoot Set For This Sunday

The next in a summer series of trap shoots will be held this coming Sunday, July 23rd at the trap field at the Grayling Golf Club. Shoot time has been set for 2:00 p.m. by the trap shoot committee of the Grayling Sportsmen's Club. At the last shoot held on Sunday, July 8 saw Dick Johnson win with a score of 18 out of 25. The committee would like to see more trap shooters turn out, so make it a point to be there this coming Sunday. The shoots offer a fine way to sharpen up your eye and have some friendly competition at the same time. Committee spokesmen pointed out that although the shoot is sponsored by the Sportsmen's Club, it was not necessary for shooters to belong to the club. Any and all are welcome to participate.

Expect Around 200 Archers Here Sunday For Meet On Grayling Range

Around 200 archers from the northern part of the lower peninsula, members of the Northern Michigan Archery Association are expected here Sunday for a shoot on the range of the Grayling Bowhunters located south of town on U.S. 27.

475 County Kids Get Polio Shots

Thanks to a lot of cooperation on the part of individuals and groups, 475 Crawford County children received their Salk vaccine shot at the new Grayling High gym last Friday, July 13. It seemed the only "unlucky" one on the Friday, the 13th was "polio," as Mrs. Johanna Gorman, R.N., and County Health Nurse supervised the inoculation of first shots among pre-school children, ages 1 through 5 and second shots among kindergarten, first fourth, fifth, sixth, seventh and eighth grade students up through 14 years of age.

Mrs. Alberta Merritt, supervising nurse for District No. 1 of the State Health Department, who worked here during the huge clinic stated that people here should appreciate the efforts made by Mrs. Gorman to do all possible to prevent polio. Many communities in the state are far behind this one in their progress with the Salk vaccine. The inoculation at Grayling (at the rate of 4 per minute (takes good aim) were performed by Dr. Edward Rodda of the Keyport, Clippert, Henig Clinic as a public service. Dr. Rodda, Mrs. Merritt and Mrs. Gorman were assisted by Elsie Larson, R.N. of Grayling Mercy Hospital, Kathleen Webb, R.N. of District Health Nurse, Houghton, Lake and Margaret Stitt, R.N., of Mt. Carmel Mercy Hospital, Detroit, who is assisting at Grayling Mercy Hospital as an anesthesiologist during the absence of Sister Mary Stella. Volunteers who assisted the medical staff included Mrs. Joseph Stripe, Mrs. Ward Elison, Mrs. Jack Fenton, Mrs. Elmer Fenton, Mrs. Grover Cason and Mrs. John H. Peterson.

Publicity which made the inoculation a success from the standpoint of making the parents aware of the clinic was assisted by Postmaster James Post, the Grayling State Savings Bank and Hunter's Dairy. The District Health Department now has Salk Polio Vaccine available for third doses of vaccine to be given to children who were in first and second grades last year, 1955, who received their first and second doses at school. There will be a clinic at the Grayling Public School building in the new gym on Wednesday July 25th from 9:00 to 10:30 a.m. Children who did not receive their second dose of vaccine last week are invited to this clinic if they received their first dose at the school clinic. Local doctors will give the vaccine.

Getting A Medical Degree...

The educational process that leads to a doctor of medicine degree is a long one. The cost of the schooling is a fact which may have discouraged many people with the ambition to study medicine but nothing in the way of financial resources.

An encouraging word, however, has come from the president of the American Medical Association. Last year he reports the largest groups of medical students came from families in which the father was a laborer or in the lower levels of business. Only 11 per cent of all medical students could look to their parents for their sole source of income.

Where did they get the necessary money? Vacation savings were one important source — and so were the earnings of wives. The AMA's president said that, while he did not want to encourage students to take on the heavy responsibility of a family, it is a fact that 18 per cent of the students reported that wives' earnings, averaging \$2,500, accounted for the largest part of their incomes.

Gifts and loans also enter into the income picture. In this connection, the schools themselves can be a source of needed help. Of the country's 81 approved dental schools, 43 offer scholarships and 59 offer loans. Twenty of the schools give cash prizes, 72 offer scholarships and 81 offer loans to upperclassmen. Getting that medical degree is a problem for young people without a backlog of money. But — given the quiet determination and ability — it can be done.

Do You Want Lower Taxes?

It would be possible to reduce income taxes by 25 per cent for everyone — without eliminating or weakening any necessary government service or activity.

How could that be done? The Town Journal explains it succinctly in these words: "Here are the figures: the personal income tax takes from the people's earnings about \$30 billions a year. The Hoover propo-

sals for shaking out the waste and inefficiently would cut the cost of Government by \$7.5 billions. That amount, \$7.5 billions, is 25 per cent of \$30 billions. Save that much and taxes could come down 25 per cent."

That \$7.5 billions could, instead, be applied to reducing the nation debt, which many think should precede tax reduction. Or part could be used for debt reduction and part for tax reduction.

Some of the Hoover Commission recommendations have gone into effect. The prospect for others seems good. But many of them — including the most important, from the standpoint of saving money and making government more efficient — are dormant at this time. They can be brought to life by public interest and public demand for reform. "Vox populi vox dei" is still a guiding rule in government.

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVALANCHE OF 23 YEARS AGO

JULY 20, 1933

Beginning Wednesday morning, advance detachments of the Michigan National Guard began to arrive at the Hanson State Military Reservation, preparatory for the annual summer training period. Quartermaster Col. Leroy Pearson and his corps of assistants have opened their offices in the administration building. Gen. Guy M. Wilson arrived yesterday.

In an effort to form an organization for the promotion of county affairs and interests, a meeting was held Monday night at the court house. The response to the movement was most gratifying to those who helped to institute the idea and every township in Crawford county was ably represented. A Crawford County Chamber of Commerce is the result. The need of such an organization has long been realized. Matters of supreme importance came up very frequently and the fact that we had no organization for handling them, they were either handled by individuals or in most instances neglected entirely. Dr. C. G. Clippert belongs the credit of putting into action a plan that seems entirely concrete and adequate, that should become eventually a lasting and valuable asset to the welfare of the people of the several townships of the county. The nomination of Dr. C. R. Keyport as president was unopposed and his election was unanimous. E. L. Sparkes, too, was elected unanimously for the office of secretary-treasurer. As stated by Dr. Keyport, there will be no need to expect that this organization is going to suddenly attain great accomplishments, secure large industries, etc., but the great important thing is that we will now have an organization qualified and prepared to handle affairs of public interest whenever opportunities present themselves. It is not only the officers

and directors who must give their best efforts, but it is for all concerned to pull together for the good of every section of Crawford County. Disappointments will come of course, but on the whole we can see a great light ahead and we are certain to be aiming in that direction. This is your association and it will become just what you make it. It wants to be useful and will work for the good of every section of the county, and whatever helps one section will also help the others. We cannot wish for good fortune for that can only come from united and loyal effort and cooperation. Tell your officers that you are with them; it will add encouragement and enthusiasm.

White gladioli decorated the
First Methodist Church in Mid-
land, Saturday afternoon, July
7th for the wedding of Miss
Kathleen Ellen Wood and David
Clifton Warren.

The bride is the daughter of Mr.
and Mrs. Earl E. Wood, and her
husband is the son of Mr. and Mrs.
Glenn W. Warren of Midland.

Dr. Orville H. McKay officiated
at the double ring ceremony. Wil-

ford Crawford was organist.
Given in marriage by her fa-
ther, the bride was attired in a
floor length gown of Chantilly lace
and tulle over satin. The gown
featured a V-neckline out-

lined with pleated tulle and em-
brodered with sequins and an
elongated lace bodice with wrist-
point sleeves. Tulle over satin
formed the skirt of the dress which
featured lace panels extended
from the waist in front and back.

A pill box type hat accented
with sequins and pearls secured
her fingertip veil of French illu-
sion edged with lace. She carried
a nosegay of white butterfly roses
and lavender and white mums.

Miss Margaret Gleason of Lan-
sing was maid of honor. Brides-
maids were Miss Ruth Bock of
Wyandotte and Miss Elsie Bor-
gula of Muskegon Heights. They
wore gowns of embossed white
organdy over lavender tulle and
taffeta, featuring scoop necklines
and no sleeves. They wore laven-
der velvet band hats decorated
with bow knots and carried nose-
gays of lavender pom mums.

Gerald Meier was the best man.
Groomsman were Ronald Wood,
brother of the bride, and Robert
Holmes, usher. Best men were
Wetrauch and Phillip Reece, all
of Midland.

The mother of the bride was at-
tired in a sherbert pink summer
suit with harmonizing accessories
and a corsage of white butterfly
roses.

The groom's mother wore a
powder blue lace dress with pink
accessories and a corsage of pink
butterfly roses.

The reception was held immedi-

ately following the ceremony in
Fellowship Hall. A miniature
nosegay of pink roses topped the
four-tier wedding cake, and white
delphinium and pink majesty
daisies decorated the cake table.

Hostesses at the reception were
Miss Laura Tweedie, Miss Bar-
bara Stark, Mrs. Robert Warner,
Miss Nancy Woodruff and Miss
Judy Noble all of Midland. Also
assisting were the aunts of the
bride, Miss Margaret Failing of
Bay City, Mrs. E. R. Penty of
Grand Rapids, Mrs. E. J. Olson
and Mrs. L. J. Douglas of Gray-

ling.
Guests were also in attendance
from Millington, Kalamazoo, Mt.
Pleasant, Ovid, Flint, Bay City,

poleon and Cincinnati, Ohio and

The rehearsal dinner was given
by the groom's parents Friday
evening at the Midland Country
Club. Other pre-nuptial events in-
cluded a miscellaneous shower giv-
ing by Miss Margaret Gleason in
Lansing and a kitchen shower giv-
ing by Mrs. Ray Duddleston and
Mrs. Max Key.

The new Mrs. Warren was at-
tired in a powder blue tulle-
trimmed dress with a navy blue
sheath dress and powder blue ac-
cessories when the couple left on
a honeymoon in Northwestern
Michigan. Upon their return they
will reside at the Chemical City
Trailer Park, 1912 Bay City road.

The bride is a graduate of Mid-
land High School and graduated
in June from Michigan State Uni-
versity, East Lansing, with a

Conservation Department airplanes play an important part in Michigan's forest fire control program, enabling observers to spot fires quickly. As soon as fires are detected by aerial observers, towermen, or ground lookouts, Department fire-fighting equipment goes into action.

Lansing, July.—Not many years ago, Michigan spent an immense amount of money trying to quell its annual forest fire problem. Literally thousands of men were employed during summer months to keep "smallish" fires from mushrooming into major disasters.

It was a very necessary business that fire fighting, and a logical step in light of the fire-charged early history of Michigan.

But the problems of packing shovels, water, food and other equipment to hundreds of men on a single fire were keeping all other conservation from moving ahead as it should. Neither funds nor manpower were available for necessary game, fish and forest development work.

Then came a full new age to untangle this thorny problem. The advent of rapid communication, motor vehicles and airplanes brought mechanization to fire detection and suppression. New techniques were developed in fire-fighting — techniques based on

more horsepower and less manpower.

Towermen and ground lookouts still are essential for fire detection and men must operate the modern equipment, but a mobilized fire-fighting unit can get to a fire quickly, limiting the loss of timber and property.

Some of the most modern equipment is developed at the Conservation Department's forest fire equipment station at Houghton Lake—the only installation of its type in the nation.

Improved fire-fighting techniques and equipment, coupled with increased public cooperation, have cut Michigan's forest fire losses to about 7,500 acres per year, a far cry from early years of the century when fires often devastated hundreds of thousands of acres annually.

These improvements also mean that funds and manpower can be put to use on other conservation projects, benefiting sportsmen, vacationers and others.

Seek State Law That Will Bar "Bad Drivers" From Michigan's Highways

A Law to "Save Your Life" will be advocated by Secretary of State James M. Hare to state legislators when they reconvene on July 17. Designed to remove "bad drivers" from Michigan highways, this legislation will deny license renewals to proven poor driving risks.

During the last 12 months 25,000 licenses were denied drivers applying for renewals according to the Secretary of State. About 15,000 rejections were based on bad driving records.

The applicant was upset last month when Judge Marvin Salmon of Ingham County ruled that at present, the Department of State does not have power to deny license renewals because of "bad driving" records. Hare now hopes to widen the scope of the law to cover these persons.

What effect does this decision have on people who were refused renewal because of bad driving records? "In effect," Hare states, "Judge Salmon's decision requires that we conduct hearings in each case."

So 15,000 hearings must be held. "This places an exceedingly heavy load upon examiners," comments Hare. "It will be impossible for us to screen out the worst drivers."

There are an estimated 3,000,000 good drivers in Michigan. According to Hare this change in the law is asked to protect these drivers. Nothing in the present statute will be altered. The right of appeal to hearings before local boards and the courts will remain protected.

"It should be clearly understood that we do not have the slightest desire to bar the great majority, who are good drivers," Hare states. "We want to remove from the road that tiny minority which is the great cause of our highway accidents."
